LOCALIZED AMPI MOU PROGRAM APPLICATION

The localized AMPI Memorandum of Understanding ("MOU") Program recognizes and endorses Texas associations and AMPI Secciónes that share similar objectives and wish to work together. As the NAR appointed ambassador association to Mexico, this Texas REALTORS® program strengthens the relationship between Texas and Mexico, while promoting collaboration and cooperation at the local level.

Texas REALTORS® will endorse meaningful pairings and assist with drafting the MOU between the parties. Once the pairing is determined, the objectives identified and the MOU signed, local associations agree that they will cooperate with their AMPI Sección and will submit an annual report to Texas REALTORS®. Through the annual report, local associations will share how each objective in their MOU was achieved. These reports will be reviewed by Texas REALTORS® to evaluate whether the relationship remains beneficial to both parties and how the state association can improve global support to its local boards.

This program will not interfere with a local Texas association's desire or intent to sign a MOU with any other bilateral partner or global group. This program will also not interfere with any out-of-state association seeking to sign a MOU with AMPI or any of the AMPI Secciónes. However, MOUs signed by a local Texas association outside of this program will not have the support services of Texas REALTORS®.

To provide Texas REALTORS® with the necessary information to support our local associations through this program, the following application is designed to understand the global resources of the applicant association and its experience with global cooperation. All applications will be reviewed carefully to ensure a productive and meaningful pairing. Existing MOUs may not be grandfathered in. Follow up questions may be required once an application is received.

We look forward to assisting our local associations to collectively build stronger relationships with AMPI across Texas!
